We've traveled to great places within the state and out

We enjoyed a luxury cruise along the Greek Islands route.

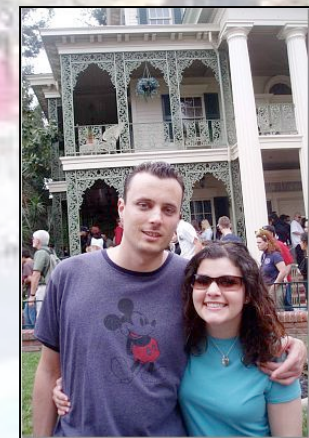

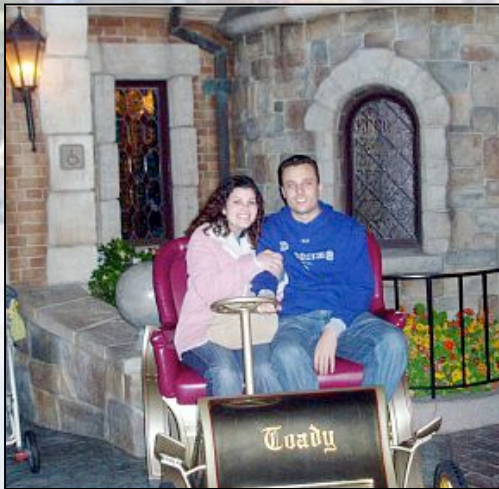

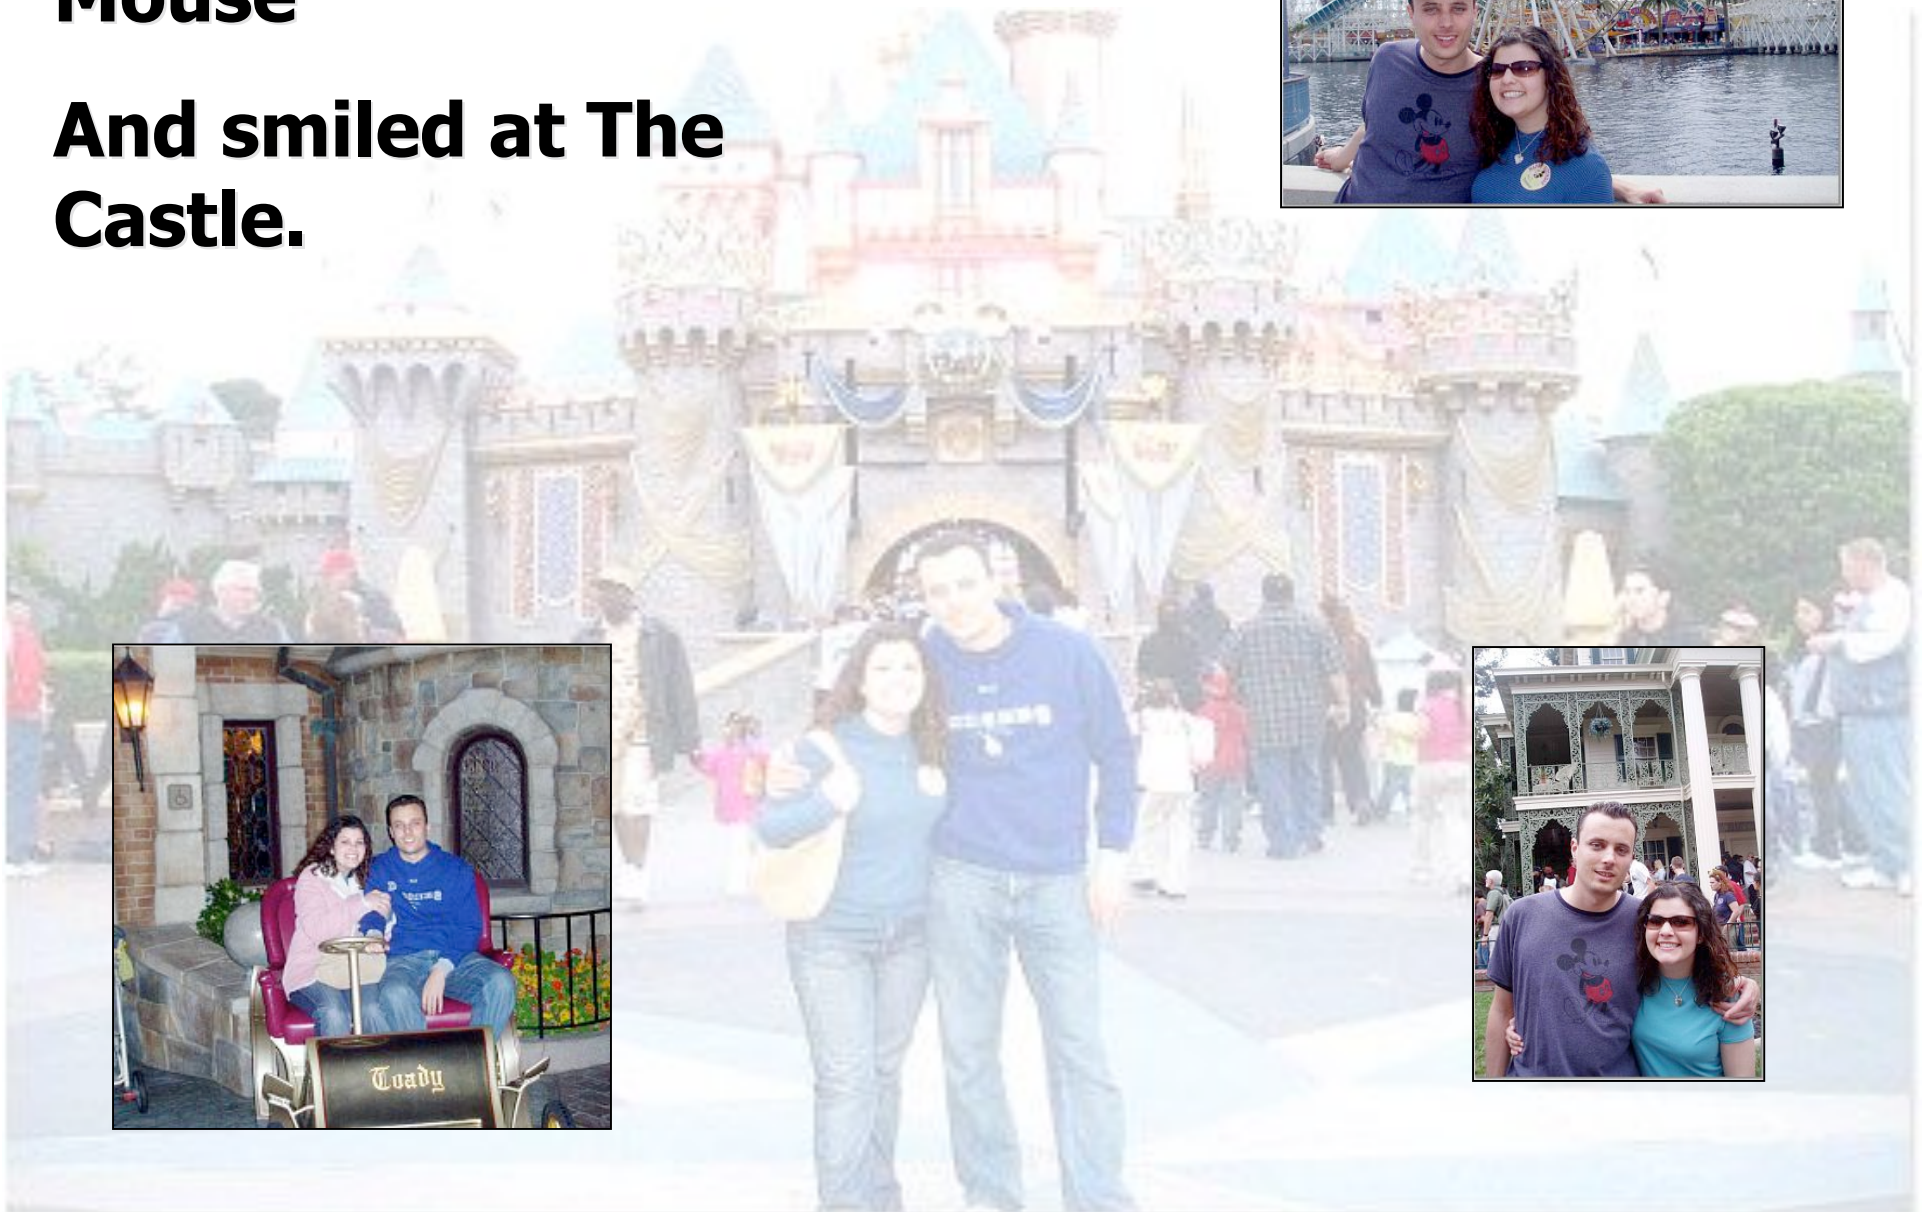

We saw our show in Vegas

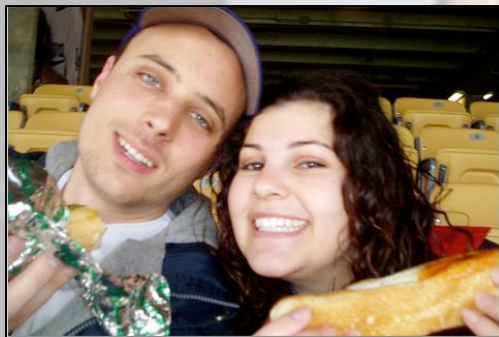

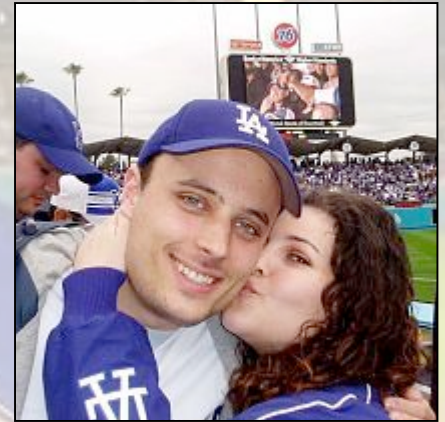

**And managed the city's
hassle**

We hung out with The Mouse

And smiled at The Castle.

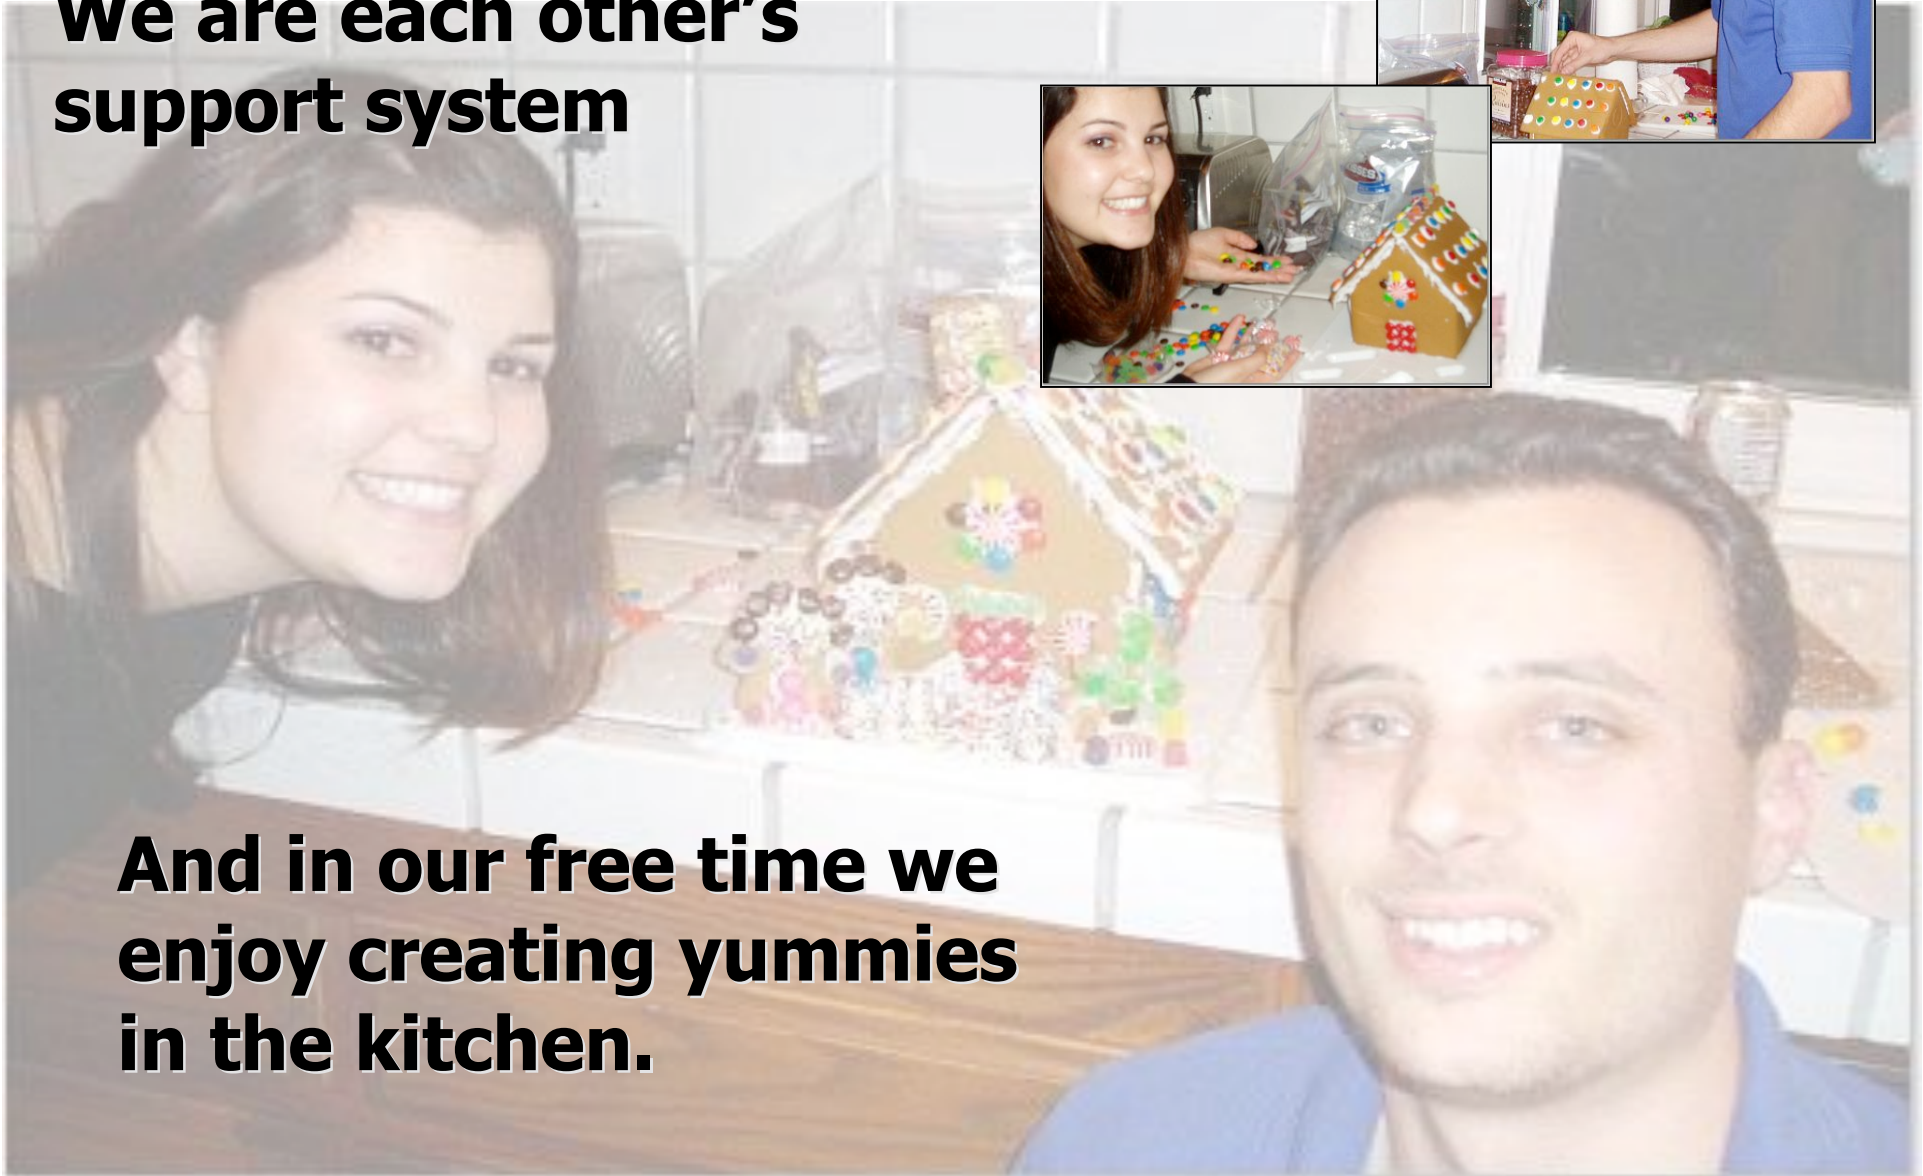

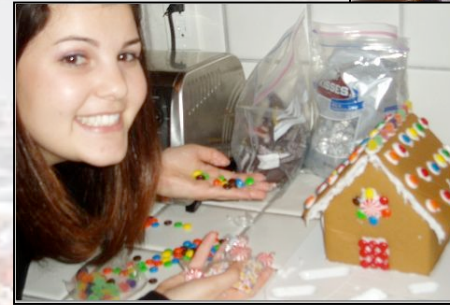

**We spend our springs
and summers cheering
on our Boys in Blue**

**Taking in a game, a dog
and malt is always fun
with you.**

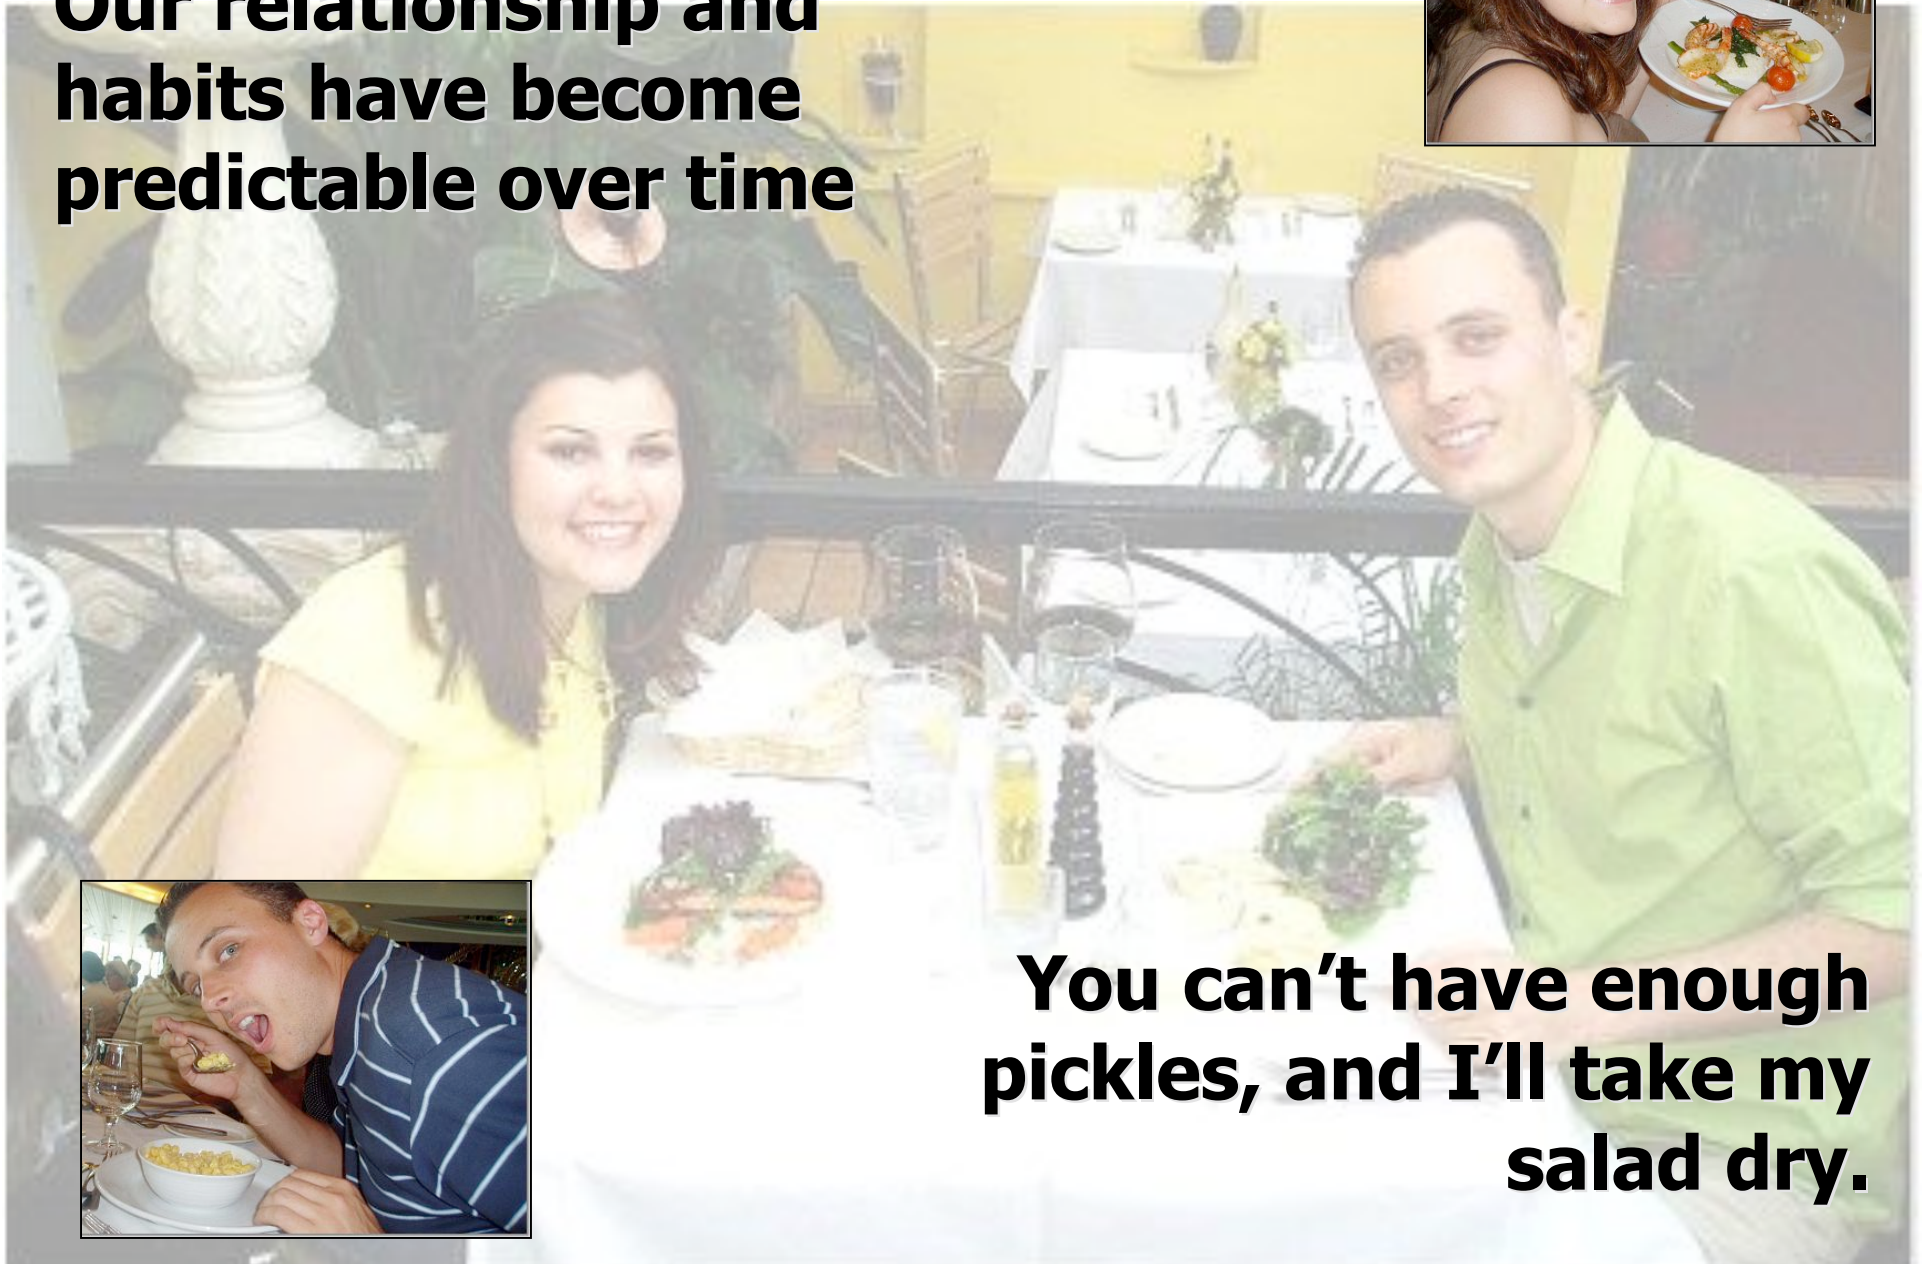

**For work, for family, for
decisions**

**We are each other's
support system**

**And in our free time we
enjoy creating yummys
in the kitchen.**

Our relationship and habits have become predictable over time

You can't have enough pickles, and I'll take my salad dry.

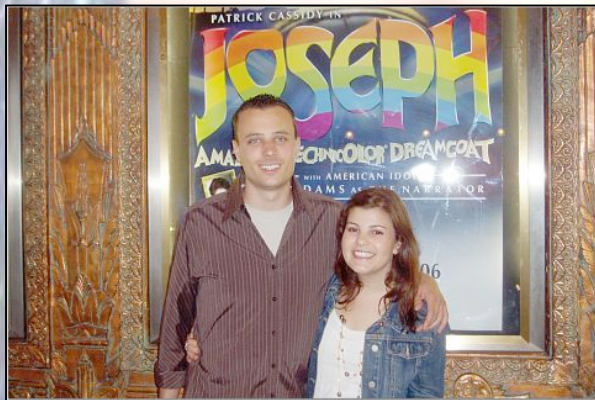

Our families are important to us and that's a huge relief

There's not much we disagree about and we avoid a lot of grief.

**Our weekends are full of
adventure that I will
always treasure**

**Board games, movies and
theater -- there's really
nothing sweeter!**

**Your determination,
patience and charm I
respect**

**I believe you can achieve
your dreams and have
anything you select.**

**On this monumental one
year mark, my feelings I
won't hide...**

**I love you to pieces, Bryan,
and look forward to more
years at your side.**
